Al Metlaoui, Gafsa 2140 Tunisie

Junior Full Stack developer (MERN, MEAN)

-Freshly graduated with a master degree in software engineering, having made a retraining in Full Stack JS Web Developer.

-On a personal level, I am highly-motivated, result oriented, self-driven, hard-working, fast learner and constantly seeking to improve my skills and am fully aware of the latest Full stack Development Tools.

-In addition to this, I have the ability to adapt to any type of team environment, I am team oriented and get along with others when working in a group setting.

-I also have the ability to work independently while staying on schedule and meeting those tight deadlines.

-I am currently working with Node JS, ReactJS, NextJS, Typescript, JavaScript, MongoDB, Express … I am currently practicing Full Stack development.
